Career Objective

AI and Data Science Undergraduate majoring in Python, Data Structures, and Machine Learning, highly interested in creating AI-based solutions, looking for a summer internship where I can utilize my AI knowledge and software/data analysis skills.

Education

VNR Vignana Jyothi Institute of Engineering and Technology Hyderabad, India
B.Tech – Artificial Intelligence and Data Science 2024–2028
CGPA: 9.2 (Pursuing 5th Semester)

FIITJEE Junior College Telangana, India
Intermediate – Board of Intermediate Education 2022–2024
Percentage: 96.8%

Bhashyam High School Andhra Pradesh, India
SSC – Board of Secondary Education 2022
Marks: 563

Technical Skills

- **Programming Languages:** Java, Python, C, R
- **Web Technologies:** HTML, CSS, Streamlit, Node.js
- **Databases:** MySQL, MONGODB
- **Tools:** Git, Power BI, Excel, Tableau, StarUML, Google Colab

Projects

AI Subtitle Generator

Tech Stack: Python, Streamlit, OpenAI Whisper, FFmpeg, MoviePy, Google Translate API

- Created an AI-based web application to create subtitles from video audio and translate those subtitles to five languages.
- Included the functionality of OpenAI Whisper to transcribe the speech to text and included the implementation of subtitle embedding using FFmpeg and MoviePy.
- Created an interactive Streamlit UI for uploading video files, generating subtitles, choosing the languages, and downloading captioned videos/subtitles.

Clinic Management System

Tech Stack: MySQL, SQL, Stored Procedures, Triggers, Python

- Developed a system for managing a clinic through a Python interface including the management of patients, doctors, appointments, medical history, and billing.
- Developed a normalized MySQL database with relationship tables, foreign keys, stored procedures, and triggers in order to provide data consistency and automate processes.
- Created reporting mechanisms using SQL queries to create patient history, appointment schedules, doctor statistics, and billing reports.

Smart Attendance Guard

Tech Stack: React.js, Node.js, Express.js, SQLite, JWT, QR Code, Geolocation API

- Created an attendance management application with dynamic QR code scanning and geofencing to ensure there is no proxy attendance.

- Created role-based authentication for students, faculty, and administration with real-time attendance monitoring and automatic QR code verification.
- Designed attendance analysis dashboards to enhance accuracy and productivity of attendance monitoring.

Certificates

- Industry based Training program on Agentic AI and LLMs
- Deloitte Data Analytics Job Simulation
- Completed Training in Full Stack Web Development
- NPTEL Introduction to IoT (Elite Silver)

Positions of Responsibility

- Volunteer of Computer Society of India(CSI) Student Chapter at VNRVJIET.
- Volunteer of National Service Scheme(NSS)
- Volunteer of Data Quester Club at VNRVJIET.
